Usage

When using the Eden logo, there are some important guidelines to follow. Firstly, always use the logo in its entirety and do not alter or distort its proportions.

✓ Use the logo from the brand color palette and ensure it is placed within the safe zones

✗ Do not alter the logo in any way, including its color, font, or proportions, or light contrasts

Typography: Primary

Satoshi

Our primary typeface is Satoshi, a sophisticated San-serif that brings warmth and personality to our communications. Inspired by early American type design, its balanced forms and subtle details evoke a sense of timeless well-being and authenticity. The typeface's organic characteristics and varied stroke weights create an inviting, human touch that resonates with our community-focused approach.

Color Palette

Brand Colors

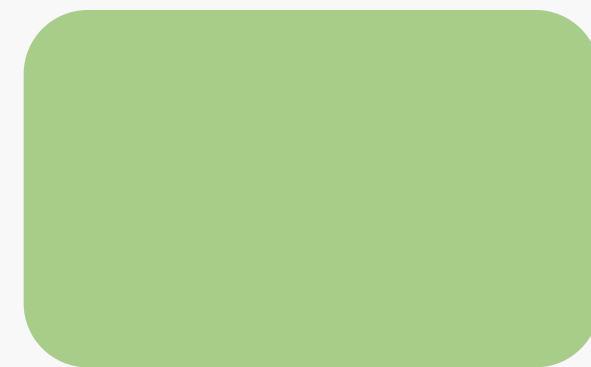

A vibrant blend of deep greens and bright teals brings energy and vitality, balanced by calming sky blues and grounded neutrals. Accents of soft gray and rich black add structure and clarity, while white space keeps the system fresh and breathable.
